

Grant Assistance for Grass-Roots Human Security Project
Completion of
The Project for the Procurement of Garbage Trucks for Corozal Town

On the 10th of July, 2020, through our Grant Assistance for Grass-Roots Human Security Projects, one compactor garbage truck and one open-back garbage truck were handed over to the Corozal Town Council in Belize.

During his remarks, Ambassador Kubota expressed his expectation that the effective use of these garbage trucks and the improvement of social livelihoods of Corozal citizens together with the synergy with the JICA project, will lead to the further strengthening of friendly relations between Japan and Belize.

While expressing his gratitude to the Government of Japan and his commitment to maintain these garbage trucks with utmost care, Mayor Vellos in return stated that through this grant assistance, the Corozal Town will be able to provide more hygienic waste management to its people, which would greatly contribute to these beautification of the town.
